

## Transform PDF documents to ePub formats consistent with IDPF standards

### Client Overview

Company : Municipal Corporation, North Vannas  
Location : Sweden - EU  
Industry : Government Dept.

### The Objective:

Setting up a process to interpret and convert PDF documents to ePub publishing format – ready for reader's device.

### The Challenges:

PDF documents are in print format & so typically less structured, causing major challenges for text elements; as to how they shall be displayed in a different context (here it is ePub publishing format).

- Emphasis
- Hyphens
- Incorrect Word Spaces
- Paragraph Delineation
- Special Characters
- Sub-fonting
- Superscripting & Subscripting
- Tables

### Technology / Software Used:

After comprehending client requirements; data conversion experts concluded on using HTML Editor, ePub validator and ePub reader, for converting PDF Documents to ePub formats.

### The Solution:

Ongoing process of converting 250 plus documents a month to ePub files; through HTML Editor, followed with validation and checking the content using ePub validator and reader, ensuring high quality output.

Cut back on expenses to succeed, spend money to save money, this aspect, is the need of the hour. The shift from books to e-books and then to a furthermore advanced version, an entire change of paradigm, becomes mandatory, as the world moves deeper into the information age. New e-books are more interactive & adapt knowledge transfer styles and strategies, to offer enhanced advantage. The process of using updatable e-books in a digital format, that won't cost more to save in the long run, but can save right now.

One of the Service providers to a municipal corporation, from North Vannas - SWEDEN, approached us to work on their fairly large and complex project of ePub conversion, of documents including annual reports, master plans, quality reports and the like. One of the challenges, anticipated across the project, was the time it would take to convert 250 plus documents from PDF to ePub, every month. Conversion includes the time consumed to edit the 'first copy' ePub publishing file created; followed with, cleaning up the formatting errors, giving out that 'Final' ePub copy that is suitable for display on reader's device. The time consumed to clean up errors and give that final ePub copy depends on various factors including:

- Complexity of content in the source document
- Post-conversion, manual cleanup
- Skill level of the people doing the work
- Type of source file
- How clean do you want it – which is of course 100%

### The Solution:

- Client selected professionals from a team of experienced and focused conversion specialists, proficient to handle more than 250 documents a month, using HTML/XHTML editor, ePub validator and ePub reader.
- Documents were converted to an ePub format, to allow access on varied eReading devices and software applications including Adobe Digital Editions, Sony Reader, iPhone, iPad and iPod Touch, Bookworm, Stanza (Windows, iPhone, iPod Touch) and many more.
- All documents were audited by Quality Assurance team before processing the files & then provided to clients with real time status reports about number of files in process and the ones processed.

### Benefits:

- Documents in ePub format were consistent with IDPF standards & ready for further distribution
- Customized conversion to digital format at competitive pricing offered considerable savings
- Maximum security for data was offered through documents management solutions
- Convenient storage capacity & transfer of these electronic documents; online

### About Hi-Tech BPO Services

They specialize in delivering backend solutions to Medical practitioners & Health care professionals in a qualitative & time bound manner across the globe. Be it specialized or general; their experts are skilled to perform tasks related to UB-04 (CMS 1450), HCFA Form 1490s (Patient's Request for Medical Payment), CMS 1500 (Health Insurance Claim Form), ADA Dental Claim Forms, conveniently. All their projects get audited by Quality Assurance team & then provided to clients with real time status reports. Their consistent efforts at building long-term relationships with clients, backed by commitment to deliver on-time and qualitative services, have been pivotal to the consistent growth above market standards.
